

E Lake Washington Boulevard Area

Birdseye view of baseline design

What we heard

- Prevent traffic congestion on neighborhood streets resulting from increased traffic on 24th Ave. E.
- Screen noise impacts on residences from traffic on the lid and additional traffic on Lake Washington Boulevard.
- Screen the visual impacts on residential views due to increased traffic and headlight glare.
- Provide a safer, more pleasant pedestrian/bike environment.
- Re-instate E Lake Washington Boulevard as the gateway to the Arboretum.
- Preserve historic character of Lake Washington Boulevard and surroundings.
- Create a better connection and transition to shoreline between E Lake Washington Boulevard and Arboretum.

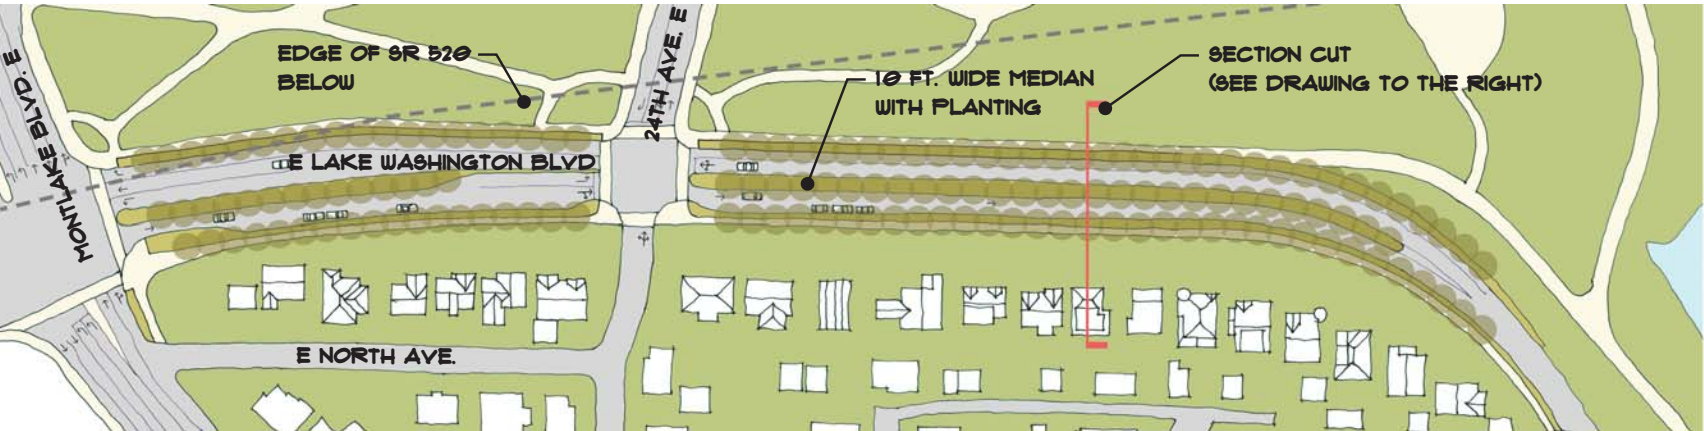

E Lake Washington Boulevard Area

Design opportunities

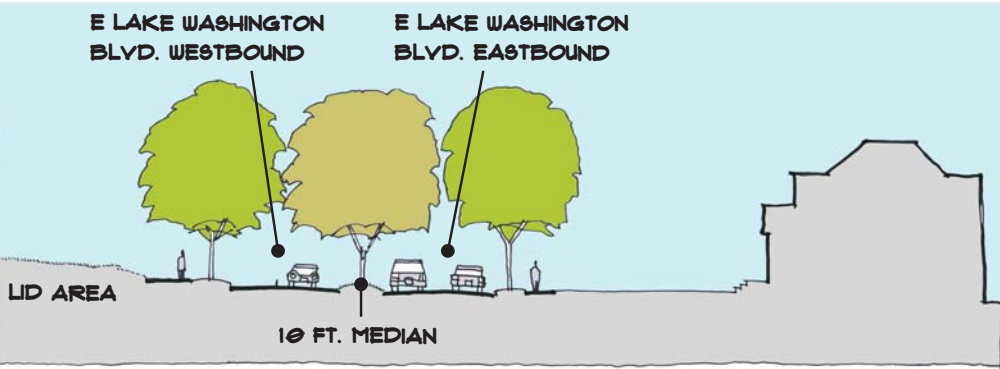

- Separate local (residential) traffic from regional (through) traffic from 24th Ave. E.
- Simplify the intersection at E Lake Washington Boulevard and 24th Ave. E.
- Improve linkages to the Arboretum and Shelby/Hamlin neighborhood.
- Add landscaped medians to recreate boulevard character and screen views of traffic.
